\* Some journals have undergone title or publisher changes during their lifetimes. For more information about individual title history, please visit the journal's list of issues page on [pubs.acs.org](https://pubs.acs.org) and look in the "former titles" information box.

\*\* The ACS All Publications, Core Plus, and Science Essentials Packages provide front-file access only. For access to prior content, a separate subscription to the ACS Legacy Archives is needed. Exceptions where subscription access includes all back issues applies to *Journal of Chemical Education*, *ACS Chemical Health & Safety*, and *Journal of the American Society for Mass Spectrometry*.

<sup>1</sup> This journal is gold open access and free to access but should be added to the library discovery systems.

<sup>2</sup> This is the online edition of C&EN news magazine that is made available to organizational subscribers. It is included in most, but not all, ACS All Publications and ACS Core Plus Packages.

<sup>3</sup> Starting in 1997, the Journal of Physical Chemistry split into two sections, A and B. In 2007 a third, C, was introduced. Editorially, these are treated as three separate journals. Transactionally, all three sections (A, B, and C) are treated as a single journal subscription.

<sup>4</sup> This journal ceased publishing new articles in 2021. Previously published content will continue to be available.

<sup>5</sup> Fee waivers may be available for publishing authors. Visit <https://acsopenscience.org/researchers/oa-pricing/#discounts> and select "Other fully open access journals" to view possible waivers.
